Expertise	Corporate Governance Strategic Human Resources Risk Management Monitoring and accountability
Qualifications	Chris originally trained as an Engineer; since changing career paths to human services, he has completed an Advanced Certificate in Management, Auditing Skills (Benchmark), Certificate IV in Workplace Safety, Certificate IV in Assessment and Workplace Training, Rehabilitation Coordination and become a WorkCover Accredited OH&S Trainer. Chris has also attended many short courses in disability, quality assurance, facilitation, management and related subjects.

Bio:

Chris has over 11 years experience working in the disability sector as Operations Manager of a medium size, non government organisation in NSW providing support services to over 150 people with intellectual disability. Chris' responsibilities included accommodation services, day programs and business services for adults, as well as an early intervention program for children. General duties included the roles of Quality Assurance Coordinator, OHS Coordinator and Rehabilitation Coordinator, and active involvement in systems and infrastructure development, managing change and continuous service improvement.

Prior to leaving direct employment within the sector and becoming a consultant, Chris also served as Chairman of the NSW National Disability Services (formerly ACROD) Business Services Sub-Committee.

As a consultant, Chris has undertaken numerous projects for service providers, community groups and government departments, including DADHC and FaHCSIA. Projects have involved quality assurance, risk management, operational improvement, business planning, systems development, service analysis and the provision of management and line training. Chris also has skills in policy development and implementation, facilitation (including mediation and conflict resolution), and lateral thinking and problem solving. He has good written, verbal and augmentative communication skills.
