My Hospital Pack - Ready for Hospital

Accessible, easy read, easy print templates and resources are available at <https://bit.ly/readytogohomeresources>

Use My Hospital Pack to organise and store personal documents and health information for a hospital stay - planned and unplanned. The pack will help you and hospital staff ensure you are well supported in hospital.

Store My Hospital Pack in a place that is easy to access, in case of emergency.

If you go to hospital, take your My Hospital Pack with you if possible.

Let your support networks and services know where your pack is kept, so they can take it to you in hospital if you are unable to take it with you.

Not all checklist items will be relevant. Where not relevant or not available, write n/a.

How to use My Hospital Pack

The pack has two sides and two checklists

Ready for Hospital (For you to complete)	Ready for Home (Hospital staff to complete)
1. You only need to complete this side - Ready for Hospital.	1. You do not have to complete this side - Ready for Home.
2. Work through the checklist: complete and enclose the documents and information you can provide. Do not seal the envelope.	2. Hospital staff will complete the Ready for Home side as you leave hospital. They will return your My Hospital Pack to you (unsealed) for future use.
